SPECIAL INDEX.

SPECIAL INDEX OF REPORTS OF PROCEEDINGS OF ASSOCIATIONS.

American Gas Light Association---Twenty-fourth Annual Meeting.

Address of President 684
Committee on Education and Research, Report of 966
Committee on Next Place of Meeting, Appointment of 762
Committee on Next Place of Meeting, Report of 848
Committee on President's Address, Appointment of 690
Committee on President's Address, Report of 722
Committee on Standards, Report of 683
New Members, Election of 682
Officers, Election of 684
Report of Council 682
Roll Call 892
Secretary, Report of 683
Treasurer, Report of 683
Votes of Thanks 892

PAPERS READ:

Discussion of Various Methods Employed in the Introduction of Gas Stoves, by C. H. Nettleton 722
*Coating Service Pipes, by A. C. Humphreys 887
*Inclined Retorts Up to Date, by Frederick Egner 802
*Modern Retort House, by Wm. S. Miller 846
Prepayment Meters, by C. W. Blodget 847
Separation of Water Gas Tar, by Alten S. Miller 846
Service Pipes and Service Piping, by T. Littlehales 886
*Some Experiments in Interior Illumination, by C. H. Page, Jr. 762
Use of the Jet Photometer, by A. B. Slater, Jr 889
Wet or Dry Heat: Which Gives Best Results in Purification? by A. E. Forstall 890

QUESTION BOX—

1. "Where stopcocks and boxes are placed on services, what percentage of same have been used on account of fire or other causes?" 891
2. "Where services are laid free of cost, and there is no city or other restriction governing the question, is the use of stopcocks and boxes desirable or justified?" 891
3. "At what difference in speed would be the leakage from a faulty joint or other defective spot in main or service pipe when open and exposed, as compared with the leakage from the same defectives, when buried in the ground?" 891
4. "To what extent is the leakage account affected by putting in the ground service pipe that has not been tested before being laid?" 891
5. "As to the encouragement of the introduction of the Welsbach lamp by gas companies" 891
